

AMRENDER SINGH

Front End Developer

860-760-5152 • asdagar5152@gmail.com • linkedin.com/in/asdagar • Gurugram

Career Objective

Results-driven aspiring Software Developer with 2 years of hands-on experience in designing and building responsive, user-focused web applications. Skilled in front-end development, and getting proficinet in Next.js, REST APIs and BAAS. At MassMan Cyber Geeks and currently at Dhwani Astro, I have collaborated with senior developers to develop scalable, maintainable solutions—leveraging technologies like Microservices, RTK, version control systems, and reusable component architecture to enhance performance and user experience. Proficient in translating design concepts into functional, elegant interfaces while ensuring cross-browser compatibility and responsiveness. Passionate about continuous learning, emerging technologies, and delivering high-quality code that aligns with business goals. I bring a balance of creativity, technical acumen, and teamwork to every project I undertake.

Work Experience

DhwaniAstro LLP Front-End Developer	New Delhi May 2024 - Present
- Optimized the company website by improving UI/UX, implementing responsive sections, and enhancing front-end performance, increasing user engagement. - Designed and developed the company's Admin panel in Next.js, along with User and Astrologer dashboards, ensuring a responsive and user-friendly interface. - Built a new website from scratch on Next.js with self-designed UI, implemented microservices architecture, integrated PostgreSQL for data management, and developed REST APIs to fetch and render data on the front end.	
MassmanCyberGeeksPvt. Ltd. Junior Front-End Developer	Gurugram July 2023 - 24
- Fixed a non-working website by re-writing CSS, adding new HTML pages and get it working & increased website traffic by 40% that attracts advertisements to the website which leads to increase in the revenue. - Worked as Manual Tester, located errors and debugged in an app, improved customer satisfaction by 50%.
